# The Senses Massages

60 / 90 minutes

## Relaxing Massage

Relax your senses with a full body treatment using exquisite oil of rose, jasmine or lavender to calm your nervous system and leave you completely at peace.

---

## Tonifying Massage

This full-body massage combines deep stretching, stroking and kneading pressure to stimulate the blood flow as well as release arthritic pains and muscular tensions.

---

## Acupressure Massage

Concentrating on your energy channels (nadis), we balance and connect your chakras to encourage life energy (prana) flow with different pressure point techniques. For skin that is stressed or fatigued, firm pressure relaxes features and smoothes fine lines.

---

## Warm Oil Massage

In this treatment, the Zanzibar tree of life oil is warmed and used to work deeply into the entire tension zone from head to toe to alleviate pain and stress, promoting circulation.

## Zanzibar Spice Massage

Revive your skin's natural health with this traditional oil-based treatment. A holistic massage with Zanzibar spices and coconut oil is used to stimulate blood circulation and strengthen the immune system.

---

## Sports Massage

A great massage for the athlete in you. It helps loosen muscles and optimize muscular response during physical exercise. After any sports activity, this treatment relieves tension and allows joints and muscles to recuperate better.

---

## Maternal Moments

This full-body massage is designed to improve skin elasticity and prepare the body for changes during pregnancy. This treatment is ideal for releasing muscle tension and preventing stretch marks. Adapted from the second and third trimesters of pregnancy.

## Four Hands Massage

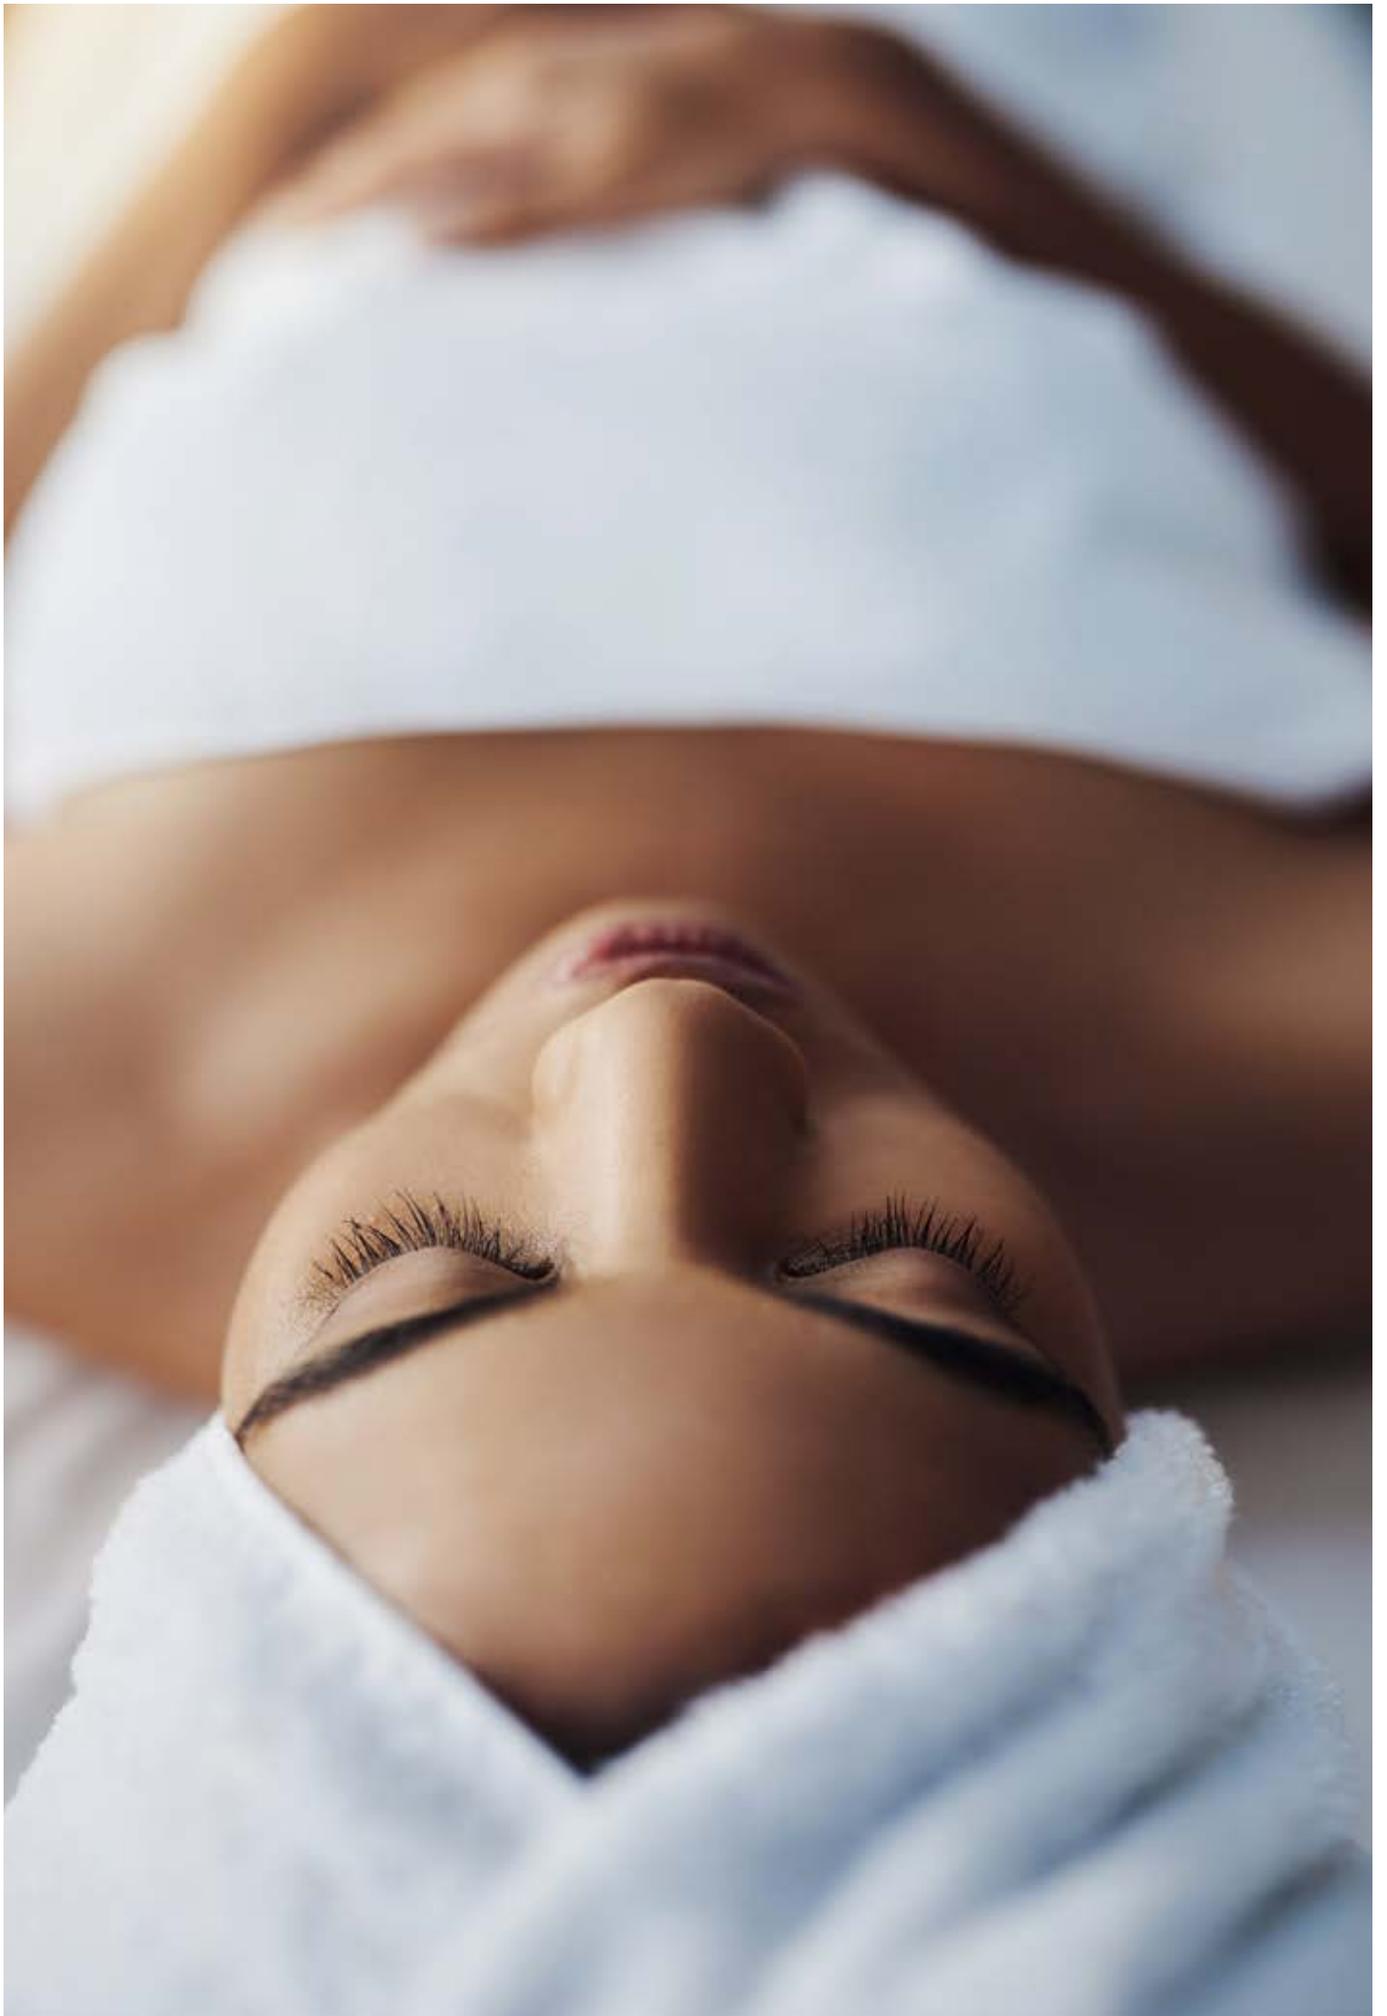

A unique experience of relaxation and balance given by two therapists at the same time delicately working with all four hands in synchronization. A magical combination of Thai, Swedish, Shiatsu and Reflexology techniques using deep rhythmic movements, leaving you completely renewed in perfect harmony with your body. This treatment will leave you feeling lighter and bursting with life.

---

## Hot Stone Therapy

An excellent experience of relaxation with stones made of volcanic rocks which will benefit you mentally, emotionally, and physically. The warmth from the stones encourages deep relaxation for the body and mind, promoting healthy circulation and releasing toxins.

## Steam Room

The primary benefit of a hammam (steam room) is that it cleans your pores of impurities and sloughs off dead skin. This reveals the fresh smoother skin beneath, and the increase in blood flow will give you a healthy glow. Other benefits of the hammam include muscle relaxation, making it a perfect prelude to a spa body or facial treatment.

---

## Infrared Sauna

The benefits of infrared saunas include helping relieve inflammation, stiffness and soreness by increasing blood circulation and allowing the deep, penetrating infrared heat to relax muscles and carry off metabolic waste products while delivering oxygen-rich blood to the muscles for a faster recovery. The infrared sauna is safe to use every day.

---

## Hot Tub

For relaxation, soaking in a hot tub is an excellent resource for stress relief, better sleep and muscle relaxation. We recommend using it before or after your spa treatment, or after sports.
